### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest using one of a plurality of different language models corresponding to a different type of voice channel for an environmental property, where the environmental property is a call-type identifier that indicates when a call is a landline type call, a mobile type call, and an IP telephony type call. It is known in the prior art to combine tone recognition with speech recognition for an interactive voice response (IVR) system. Generally, it is also known to compensate for channel conditions in speech recognition to improve performance of a speech recognizer. However, the prior art of record does not disclose or reasonably suggest changing a language model in accordance with specific call types, where the call types are each of a group of a landline type call, a mobile type call, and an IP telephony type call.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin Lerner whose telephone number is (571) 272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.
